- **Past Union Affiliations, IAM, UAW, Boilermakers and Blacksmiths Union**

Bart Experience

- **Train Control Electronic Technician since 1997**

A number of you have, for a few years now, been ushering me towards a seat as an officer in our BART Chapter of the SEIU. Until now I side stepped, preferring to serve as a Chief Steward while continuing my work in Train Control. I feel the time has come for me to accept your nomination. As your Vice President I will preserve, protect, and defend your careers with any and all means at my disposal.

It is time to elect a leadership who will put aside their differences and work together to gain a new strength and sure footedness so that our future will be secure. I plan to be here at BART for another fourteen years. Therefore, I strive to make this a dependable and equitable place for us to enjoy our careers, then retire with peace of mind and confidence.

For those who as yet do not know me, I have been here since June of 1997 and have been a Chief Steward for more than half a decade. I picked up my career in electronics in the Marine Corps. I served during some good times and some stressful. This reinforced what I had already been taught, that no matter what the times, plant your feet firmly, keep your friends close, your enemies closer and Do The Right Thing.

My name is Frank Cain and I accept your nomination for Vice President of our BART Chapter in the SEIU on one condition. That you stay in touch. Keeping me informed of happenings in your area and allowing me to pick your brain so I may be well informed to serve you.
