

Gialene Gaines

Invest in your future

for Vice-President

System Service Crew Leader

BART 12 years

Line Steward

CAT member

Action Team Organizer

At BART, I've organized my co-workers to defend against hazardous working conditions that were created by inadequate staffing and the system-wide pigeon feces problem. I testified before the Board, and got the District to provide the proper training and personal protective equipment.

I also helped organize two Board Actions in defense against Dorothy Dugger's FY10 lay offs, which saved jobs, and put the District on notice that the Union will not accept layoffs without a major fight.

Engaging in different actions and having talks with management along with Board members, has been a great experience, which resulted in victories for us all. I've experienced first hand how many issues have gone unresolved and this is why, I am very serious about dedicating my time and energy to our Chapter.

This experience, in addition to the six years I spent as a community organizer and President of the Women's Mission Union, has given me the desire to stay active and to continue mobilizing members to standup and fight for our rights.

I'm running for Vice President, so I can continue to push for change, help reunite, rebuild, and reassure our membership that we can see a new day, and a brighter future.

We can do it, if we do it together.

The BART A-Team core values are-
Member-Engagement, Action, and Transparency.
