

Invest in your future

Rhea Davis

As the Action Team Chair, I have the experience and a proven track record in defending our interests and championing change in the right direction.

I've organized three BART Board Actions that saved jobs, protected our work environment, and sent the District a clear message that our Union will fight back.

During negotiations, you may have seen me manning the Picket Duty tables. I developed the Picket Duty Database, and worked with ATU to coordinate Picket Captains, locations, and shifts. We utilized the Internet to ease access across three Unions (including AFSCME.)

I joined the Contract Action Team in March 2009, and I haven't stopped working for our members ever since. I developed the BART Workers United email list as a conduit for communications during negotiations (which I continue to maintain as a resource for our members.)

After I experienced the untapped strength of our members, there was no turning back. I organized our first annual BART Workers Food Drive, and created a Budget Task Force to delve into the District's finances.

I believe our Union should be run with integrity and in a transparent way. Members should know what their leaders are doing and negotiating on their behalf.

I have the energy, the enthusiasm, and the resources to fight for you. I have the right kind of experience at the right time.

for Vice-President Automatic Fare Collection Electronic Technician

BART 13 years
